Office of Tribal Transportation

The Office of Tribal Transportation (OTT) administers the Tribal Transportation Program (TTP) and provides stewardship and oversight for direct funding agreements with 135 federally recognized Tribes. The OTT also provides support for all FHWA activities affecting tribal transportation. This support includes the administration of TIGER/BUILD grants awarded to Tribes, and the transfer of funds from States and other local governments to Tribes through the 202(a)(3) transfer process.

In addition, the FHWA Office of Tribal Transportation manages the Tribal Transportation Program Bridge Program and the Tribal Transportation Program Safety Fund for all federally recognized Tribes. These grant programs are set-asides from the overall Tribal Transportation Program.

The mission of the FHWA Office of Tribal Transportation is:

Through mutual respect and understanding, enhance the quality of life in Tribal communities by supporting the Tribes' delivery of transportation programs.

Tribal Transportation Program

TTP is the largest program in the Office of Federal Lands Highway. Established in 23 U.S.C. 202 to address the transportation needs of Tribal governments throughout the United States, the program is receiving $455 million in FY 2016, with increases of $10
